

NSS - Blood Donation (9 September 2026)

On 9 September 2026, the NSS Units of Seva Mandal Education Society's institutions, in collaboration with the Lions Club of Sion and Dr. R. N. Cooper Hospital Blood Centre, Vile Parle, organised a Blood Donation Camp with the objective of creating awareness about voluntary blood donation and saving lives.

Students, teaching staff, and office staff actively participated in the drive, reflecting a strong sense of social responsibility and community service.

33 bottles of blood collected during the camp. 42 students deferred due to low hemoglobin; they will receive nutritional counselling from the Food Nutrition Department. 7 staff members from M.M.P. Shah College and 1 staff member from B.M.N. College contributed as donors.

The NSS Unit extends heartfelt gratitude to all donors and volunteers for their valuable support in making this camp a success.
